

ISAR Water

Application:

ISAR Water is a food hose suitable for the transportation of foodstuffs, including oily and fatty media. Can also be used for cleaning purposes with hot water and detergents.

Construction:

The ISAR Water food hose is made of NBR rubber inside and NBR / PVC outside, as well as reinforced with synthetic fabric. The hose is light and smooth on the inside and smooth in blue or red colour on the outside.

- Reinforced with synthetic fabric and multiple layers of polyester
- Resistant to oily and greasy media
- Ozone and weather-resistant

Temperature:

The temperature ranges from -40°C to +100°C.

Pressure:

Working pressure up to 20 bar.

All pressures are given at the temperature of +20°C.

Standards:
